December 8, 2020

Dear School Community,

If your student does not feel well or is demonstrating COVID-19 related symptoms, please DO NOT send them to Cape May County Special Services (CMCSSSD) for in-person instruction.

According to the New Jersey Department of Health, since the risk level for transmission is HIGH, we must treat symptomatic students the same as students diagnosed with COVID-19. If an ill or symptomatic student is sent to CMCSSSD, we will send them home.

Please understand that after an ill or symptomatic student comes to CMCSSSD and is sent home, the District must (1) contact the Cape May County Department of Health, (2) begin contact tracing to identify close contacts, (3) direct close contacts to self-quarantine for 14 days (close contacts may include other students, staff, and faculty), and (4) close classrooms for disinfecting and cleaning. This process is incredibly time-consuming, disruptive to the school day, and could result in CMCSSSD having to close for in-person instruction due to the potential spread of COVID-19.

We need your continued support to keep CMCSSSD open for in-person instruction.

We all wish our current reality were different, but we are responding every day to COVID-19 related issues based on the recommendations and guidance of the New Jersey Departments of Education and Health as well as the Cape May County Department of Health.

We look forward to fully re-opening CMCSSSD but until that time- we need your support and anticipate cooperation!

Sincerely,

Jamie P. Moscony
Assistant Superintendent
